

# 10 THINGS TO ASK SEIU

1. Why hasn't the union informed IPs of their right to choose for themselves whether to pay union dues under the U.S. Supreme Court's ruling in *Harris v. Quinn*?
2. Why has SEIU 775 spent hundreds of thousands of dollars of members' dues on private law firms to fight efforts by the Freedom Foundation to inform IPs of their rights?
3. Why is the union being sued by caregivers for illegally taking dues without their permission?
4. Why did the union illegally conceal \$1.4 million in political campaign contributions, leading to a \$44,000 fine after it was sued by the state Attorney General?
5. Why have union reps been caught on tape lying to IPs about their rights?
6. Why did the union tell IPs it was fighting to get them overtime when the union's lobbyist supported legislation to limit IPs' hours?
7. Why is the union sending millions of dollars of IPs' dues out of state?
8. Why are SEIU 775 dues higher than any other SEIU union in the Pacific Northwest and twice as high as dues for state employees?
9. Why does SEIU 775 need to collect \$50 million from IPs to negotiate a contract with the state once every two years? Unlike traditional unions, SEIU 775 can't process workplace disputes or grievances because IPs are employed by their clients, not the state.
10. Why do union dues keep going up when the union has \$11.5 million in the bank?
