In October, SEIU 775 members ratified what is undeniably  
**the best home care contract in the nation**

**Here are the highlights of our new contract:**

- An average wage of more than \$14.37/ hour
- Raises every six months, that will total an average of nearly \$2.50/hour by the end of the contract
- A new top step that will reach \$15.40 per hour
- The nation's first retirement plan for individual homecare providers
- Increased paid time off
- Overtime after working 40 hours in one week
- The right for caregivers to participate in their client's assessment
- Funding for a new referral registry
- Preserving all the hard-won gains in our previous contract, including our health insurance benefits, workers compensation coverage and quality training.

**What's next? Now the Legislature needs to approve and fund our contract!**

**Stay tuned for information on ways to get involved!**
