Subject: FW: TALKING POINTS: State Public Employees & Public Records Request

Jane,

Take a look at these talking points, and see if you can use it to update Senator Keiser's messaging on 1888. Treat it like a draft for her review. *I have no doubt that this effort will be useful this session.*

Thank you,

Jennifer Minich

Subject: TALKING POINTS: State Public Employees & Public Records Request

Colleagues,

Last month, we surveyed offices to see how many of you were hearing from public employees being harassed by the orgs, such as the Freedom Foundation. Comms has developed the following talking points for the SDC, see below.

State Public Employees & Public Records Request

Tuesday, January 14, 2020
3:56 PM

SDC Talking Points:

- Thank you for reaching out to my office and I am so sorry that you have been subjected to the antics of these anti-union zealots.
- Public safety is one of my top priorities and I know how devastating it can be when sensitive, personal information falls into the wrong hands.
- The legislature first started addressing this issue nearly 30 years ago with the [address confidentiality program](#), which prevents disclosure of addresses from assailants or probable assailants.
- There was also an exemption enacted during the 2019 session, that goes into effect July 1, that will protect state employees if the person requesting the address is alleged to have harassed or stalked the employee.
- Our colleagues in the House are working on [House Bill 1888](#), which will exempt state employee birthdates from the list of disclosable personal information.
- I will follow the progress of this bill closely and support it if and when it makes it to the Senate.

IMPORTANT: As more talking points are developed and circulated throughout session, we will store them in an [easily accessible Notebook](#).

Hello-

I've added the bullet about the additional protections for people who are survivors of or potentially in a DV situation. The new part is in bold. Have I characterized the policy correctly? I'm not clear how someone could be ID'd as an "assailant or probable assailant?"

Good morning Nicole,

I am sending along some talking points from comms re: the Freedom Foundation Public Info requests. While this is a good starting point, I anticipate we will be adding to this messaging as we get more talk amongst members. Hope this helps!

Best,

Crystal

Hello-

So I was thinking something along these lines would work to give to the offices that have been hearing from people getting harassed by the Freedom Foundation. Very interested in feedback from you both:

- Thank you for reaching out to my office and I am so sorry that you have been subjected to the antics of these anti-union zealots.
- Public safety is one of my top priorities and I know how devastating it can be when sensitive, personal information falls into the wrong hands.
- The good news is that our colleagues in the House are working on House Bill 1888, which will exempt state employee birthdates from the list of disclosable personal information.
- I will follow the progress of this bill closely and support it if and when it makes it to the Senate.
