As most of you know I've spent most of my professional career with the NLRB. It is my home. Besides my family, the NLRB is what defines me.

While I do not know how long I will serve as Acting General Counsel, I can assure everyone that I will do everything that I can to fully effectuate the Act. That starts with supporting the great women and men of the NLRB. All of you have dedicated your careers to enforcing the Act. I will do all I can to support you so that workers in our communities know that they can turn to us for help. I often say that I look at the NLRB from the view point of my working-class immigrant parents. Would my parents know what to do if they were retaliated against in the workplace? How would they like to be treated if they had the wherewithal to come to the NLRB for help? Ultimately, the NLRB exists to provide an important service to our community members.

Please join me in making our community a better place. We will make significant differences.

must submit all documentary evidence, including statements of position, exhibits, sworn statements, and other evidence, by electronically submitting (e-filing) them through the Agency's web site (www.nlr.gov). Submissions via other means must be accompanied by a statement explaining why the party does not have access to the means for filing electronically or why filing electronically would impose an undue burden. Dear Peter (if I may),

I am a field attorney in Region 31 and I wanted to send my warmest congratulations on your appointment as Acting General Counsel. Your reputation has preceded you as a conscientious, intelligent, measured, and thoughtful leader. And my good friend and former colleague, (b) (6), has always sung your praises. I am thrilled that the President has made such an excellent selection.

I also wanted to extend my deep appreciation for the note that you sent to the Agency yesterday. As someone who came to this country as a child refugee, it means a lot to me that you framed the work that we do through the lens of the immigrant experience. Indeed, it is with this nuanced sensitivity to questions of privilege and access that we should all approach service to the public. Thank you for imbuing our work with more meaning, and for making so many feel seen.

Congratulations again, and I feel honored to be joining you in making our community a better place.

Warmly,
Lynn
